

HEALTH INFORMATION TECHNOLOGY

Specialization: IT and Cybersecurity

ABOUT THIS PROGRAM

DIGITAL HEALTH CORE

DIGITAL HEALTH CORE

DeVry University's Digital Health Core program is designed to help students develop a set of interdisciplinary skills for today's rapidly evolving health information field. Courses explore principles used throughout the healthcare ecosystem and provide students hands-on experience working with industry-standard software systems and simulated patient records.

A PROGRAM TO FUEL YOUR FUTURE

Prepare to explore the fundamentals of integrating network technologies, managing networks and software applications and various aspects of information security.

IS THIS PROGRAM FOR YOU?

Are you interested in developing an understanding of the ways IT and Cybersecurity intersect with healthcare? DeVry's Health Information Technology program with a specialization in IT and Cybersecurity helps students learn the basic skills needed to safeguard healthcare facilities from malware and ransomware assaults that could impact patient care, healthcare operating systems and sensitive patient data.

CAREER OPPORTUNITIES

Graduates of DeVry University's Health Information Technology program with a specialization in IT and Cybersecurity may consider careers including, but not limited to, the following:

- Computer User Support Specialist

PERSONAL AND PROFESSIONAL DEVELOPMENT

CARD205 Career Development

HIT101 Professional Skills for Healthcare

DIGITAL HEALTH CORE

HIT111 Basic Medical Terminology

HIT125 Electronic Health Records and Digital Health

HIT223 Medical Ethics, Compliance and Patient Privacy

HIT235 Health Insurance Billing and Reimbursement

IT AND CYBERSECURITY SPECIALIZATION

CEIS101C Introduction to Information Technology and Information Systems

CEIS106 Introduction to Operating Systems

HIM377 Cybersecurity and Data Privacy in Healthcare

HIT278 Career Success in Healthcare

NETW191 Fundamentals of Information Technology and Networking

SEC285 Fundamentals of Information System Security

WHAT YOU'LL LEARN

GENERAL EDUCATION

- Understand the human body structure and functions
- Explore drug therapies and the conditions they are prescribed to treat
- Analyze numerical data
- Solve complex problems

DIGITAL HEALTH CORE

- Learn medical terminology to read and understand medical documentation
- Review medical data to ensure quality and integrity
- Audit records to ensure compliance with standards
- Examine legal and regulatory issues in healthcare
- Study US healthcare delivery systems and processes
- Explore healthcare reimbursement and payment methodologies

IT AND CYBERSECURITY

- Install and configure operating systems using Command Line Interface (CLI)
- Produce, secure, operate and troubleshoot small enterprise networks
- Plan security controls, incident response, and risk mitigation to prevent and recover from business interruptions
- Build self-presentation and career-planning skills; explore ongoing career development strategies

EARN A CREDENTIAL AT EVERY STEP

HOW DO CREDENTIALS STACK?

When you earn the Associate Degree in Health Information Technology with a specialization in IT and Cybersecurity, eligible courses apply to our Bachelor's in Technical Management – General Technical Option. Build your confidence – and your resume – when you start your journey at DeVry.*

*The figures displayed represent the minimum credit hours required for graduation. Additional coursework may be necessary to complete program requirements. At the time of application to the next credential level, an evaluation of qualifying transfer credit will occur and the most beneficial outcome will be applied. Future programmatic changes could impact the application of credits to a future program. Refer to the academic catalog for details.
